Vi Nguyen

Frontend Developer
Ho Chi Minh City, Vietnam

Summary

As a seasoned front-end developer with over 2 years of experience, I specialize in building dynamic and engaging user interfaces for web applications. My expertise spans across ReactJS and Angular frameworks, enabling me to create responsive, high-performance, and scalable web solutions.

As a passionate learner, I am always exploring new technologies, tools, and frameworks to stay ahead of the curve. I enjoy working with cross-functional teams and building advanced web solutions that meet customer needs.

I am passionate about creating beautiful and functional user interfaces and am always looking for new challenges and opportunities to grow as a developer.

Experience

ITBee Solutions
Frontend Developer
January 2021 - Present (2 years 2 months)
Ho Chi Minh City, Vietnam

I worked on several projects for various clients, including web applications for social media startups and responsive e-commerce platforms for retail companies.

Responsible for developing and maintaining the front end of complex web applications. Working closely with the design team and backend developers.

Develop reusable components, reducing development time and improving the overall quality of the codebase.
